Manual Stations

The RMS manual pull station is a high quality non toxic die-cast manual pull station manufactured entirely in the U.S.A. Low profile design and smooth edges offer an attractive yet functional design. All components are Powdered coated or have plated surfaces and inhibit corrosion. Electrically the RMS manual pull station is unbeatable with 10 amp snap action switch offered in all possible contact arrangements (including gold contacts). The RMS pull station can be used with or without a break glass rod with replacement requiring no special tools. All stations are Red, unless otherwise indicated.

Other features include
• Lift and pull
• Break glass cover
• Institutional key lock
• Weather and explosion proof versions
• All stations offer hex screw or key lock access
• Private labeling and special options also available
• Brass plated and other color options available
